

a new
mobility

part joyride,
part environmental movement.

We live our day-to-day lives in bubbles, spheres of interaction where we work, play and thrive. Where we interact with family, friends and neighbors. Perhaps a run to the community rec center. Or a drive to the corner store. It's our comfort zone. An extended backyard. The new THINK™ neighbor electric vehicle from Ford was created to explore this intra-space with a lighter, gentler touch. THINK neighbor electric vehicles are easy to operate, affordable, virtually silent, with zero emissions. From the energetic hustle of the city to the serenity of wide-open spaces, at work or play (or any combination in between), THINK is a part of being human. Think about it.

BASIC MODEL

take charge and go!

Meet your new THINK™ neighbor from Ford. The future of stylish, powerful and dependable personal mobility. Completely legal on streets with posted speeds up to 35 mph, THINK neighbor offers much of the comfort, convenience and benefits of owning a car—at a fraction of the cost. It's the perfect solution for getting around local neighborhoods, planned communities, vacation resorts, golf courses and commercial campuses. With comfortable seating in either two- or four-passenger models, THINK neighbor has a top speed of 25 mph and can travel up to 30 miles before being recharged.

SPORT MODEL

On the links or on the road, you're definitely on course with THINK™ neighbor sport. It's the perfect golfer's vehicle. Choose from two- or four-passenger models, with standard ball and club washer, bottle holder, scorecard clip and pencil holder. Both equipped with a lockable trunk and storage space that doubles as a cooler. It's exactly what you need—from the fairway to your own driveway.

finally, a longer, better drive is possible!

FAMILY MODEL

so fun, it'll recharge your batteries, too.

THINK™ neighbor family model is ideal for cruising around gated and planned communities. For a jaunt to the pool, the rec center, or even out into the big bad world, THINK neighbor family model will carry you in style with two- and four-passenger models, a 12V powerpoint and an expanded trunk. And with features like the LATCH (Lower Anchors and Tethers for Children) child seat retention system, lockable trunk doors and passenger-side exterior mirror, this zero-emissions vehicle is made with you and your children in mind.
